

Petal™ site furnishings are unlike anything you've seen in the marketplace. These ideas grew out of a design team who are very "green" minded and are passionate about spending part of their life on two wheels. These high design bike racks are perfect for those looking to add cool sculptures to their environment, while giving their friends a place to park their cycles.

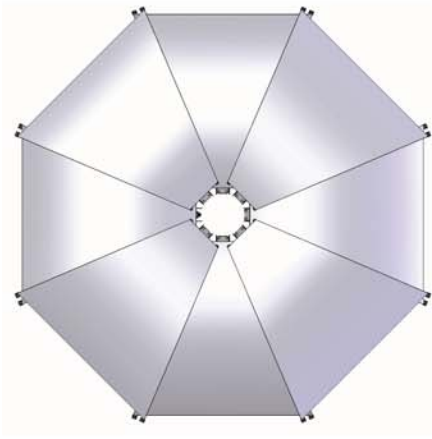

Let's face it...biking is healthy, burns no gas, leaves no carbon footprint.

So stand your bike up, be seen, be counted,

and be green!

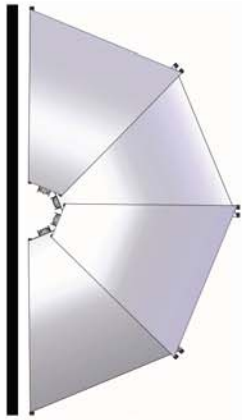

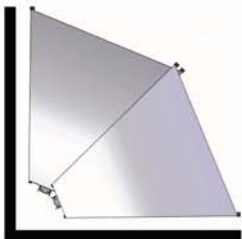

8 place (free standing)

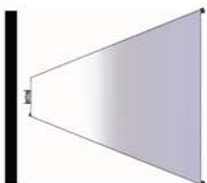

6 place (outside corner)

4 place (along wall)

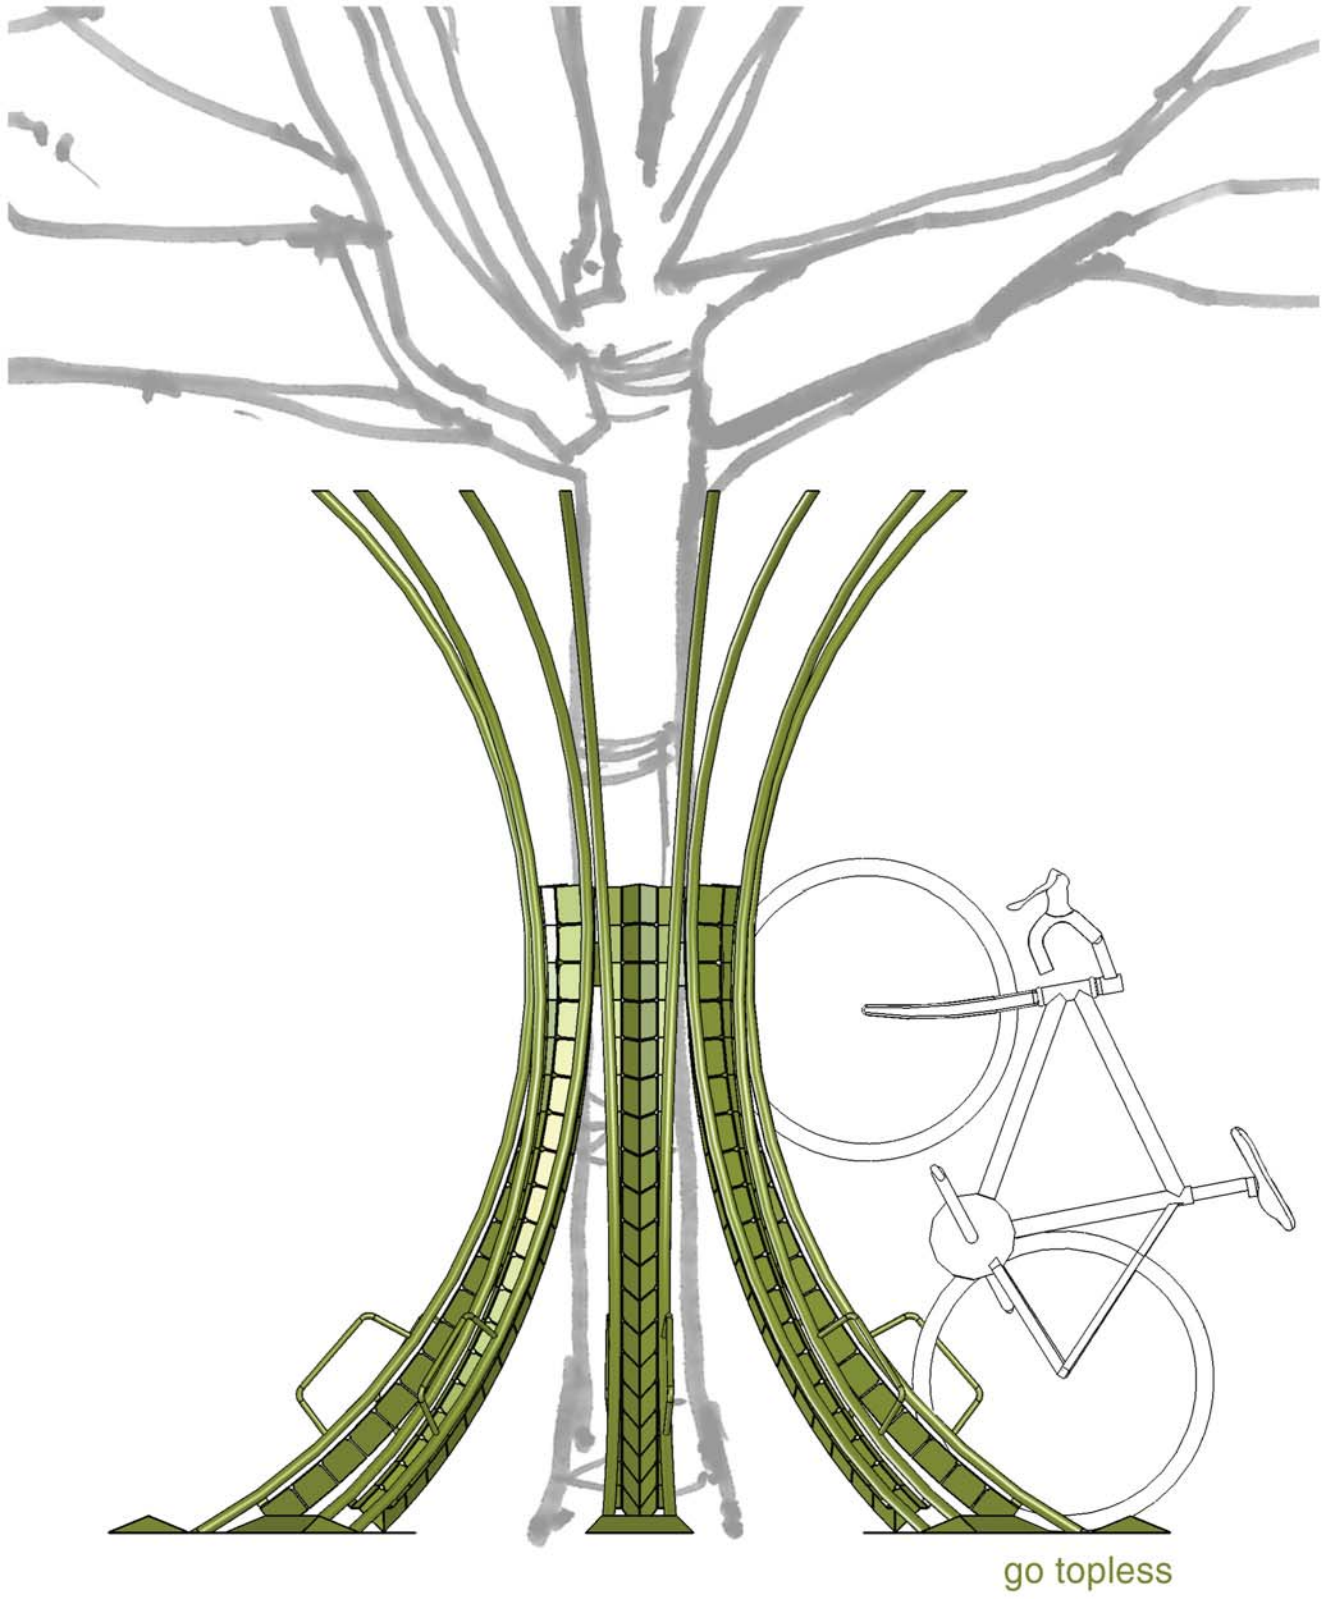

2 place (inside corner)

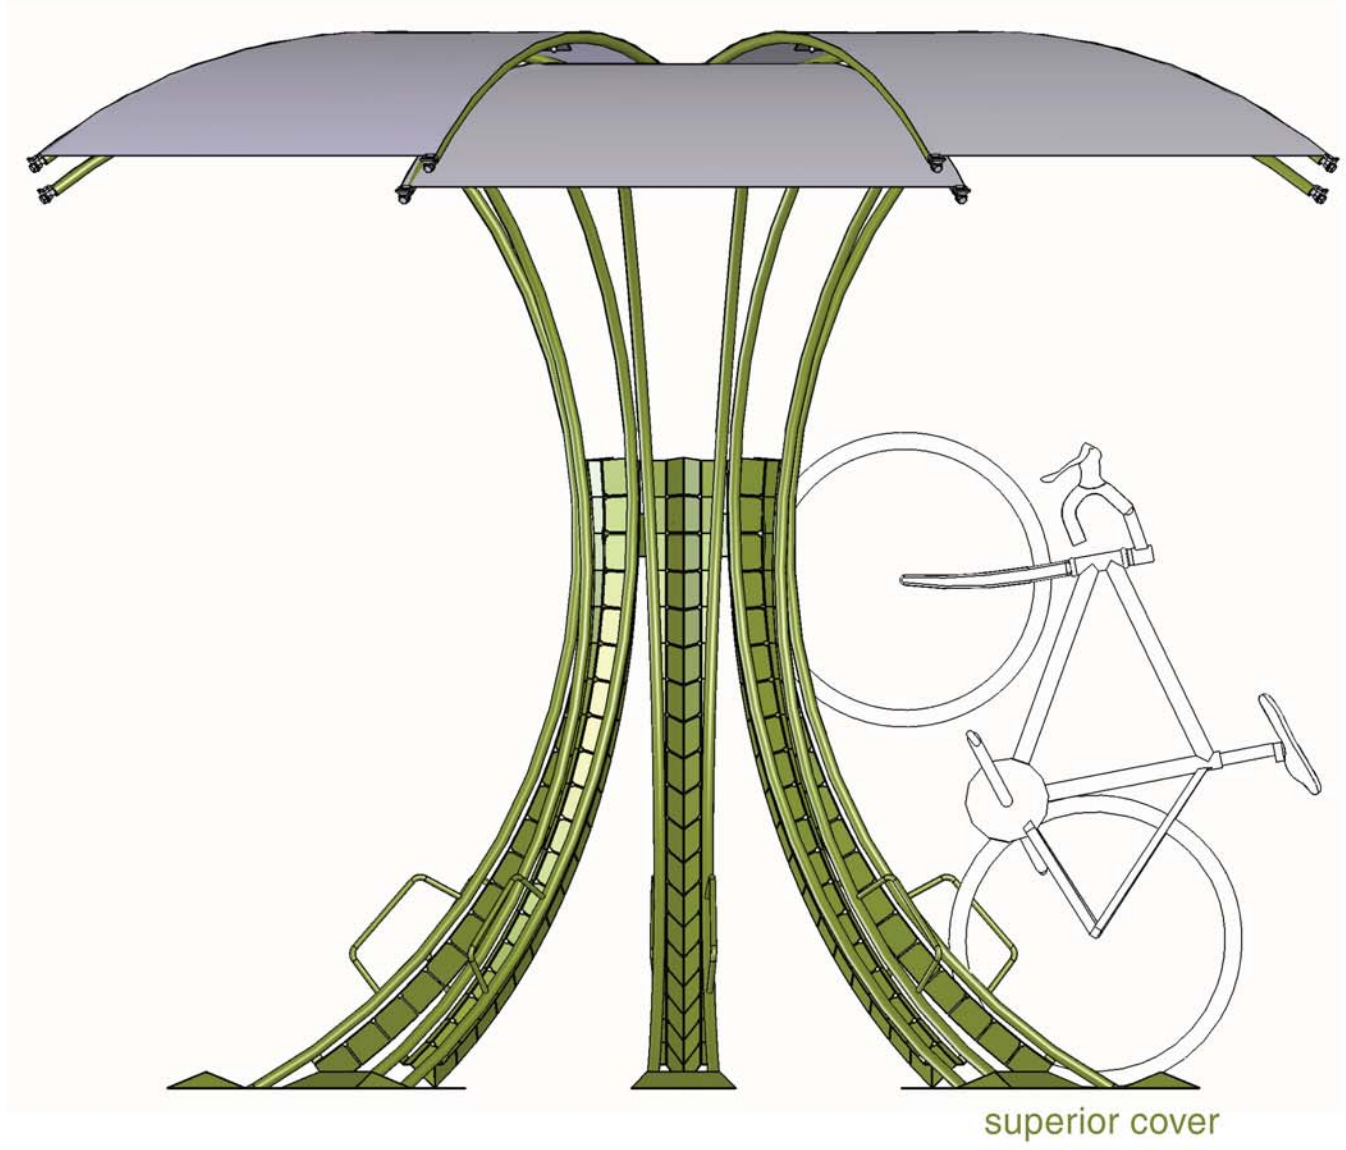

1 place (along wall)
